PROJECT RESULTS

- 1 SkillQuest Framework:**
Identify and strengthen 5 key soft skills impacted by AI
- 2 Teachers' Handbook:**
Practical strategies for AI literacy.
- 3 Active BrAIIn Platform:**
Interactive resources for students, teachers, and parents.

Project mandate

01/10/2025 – 30/09/2027

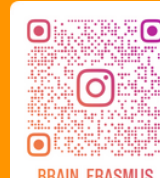

Project

KA220-SCH-73CBC06E

TARGET GROUP

- Primary School Students (Ages 6–12).
- Educators and School Staff
- Parents and Family

Unmonitored AI use can lead to over-reliance on technology, weakening essential cognitive abilities such as critical thinking, problem-solving, creativity, and independent learning (SLE Journal, 2024).

addresses a critical need arising from the rapid integration of AI into students' daily lives, ensuring that young learners develop the necessary skills and awareness to engage responsibly.

BrAIIn responds to these challenges by equipping students, educators, and parents with the knowledge and strategies needed to ensure that AI serves as a supportive tool rather than a replacement for human intelligence.
